Legend

-  Possible Oil
-  False-Positives (not oil)
-  Destroyed Taylor Platform :
[28°56'9" N / 88°58'12" W]

REMARKS: Suspect oil connected to Destroyed Taylor platform has very similar features to yesterday's suspect area, but continues to thin out. However, surface ocean currents have allowed the oldest portion of the slick to curve back north and west toward the Southwest Pass of the Mississippi River and East Bay and is about 9 miles Southeast of the Southwest Pass.
