Legend

-  Possible Oil
-  False-Positives (not oil)
-  Destroyed Taylor Platform :
[28°56'9" N / 88°58'12" W]

REMARKS: An area of possible oil is seen coming from
the Destroyed Taylor platform off the Birds Foot Delta.
The slick stretches northward for approximately 11.5
miles with a maximum width of 0.7 miles. A dark area to
the northwest of the oil slick is believed to be a
convergence zone and unrelated to the oil. Winds were
light from the southeast at the time of the image with
mostly clear skies.
